Electronic Magneto Ignition System

The part fits the P450, P470 and P670 engines. This ignition system is the thing to have for your racers. This ignition has the following advantages:

- 1) No points
- 2) No timing adjustments
- 3) No condenser
- 4) Weighs 1 lb. less than the stock magneto.
- 5) Much quicker acceleration
- 6) Much greater voltage to the spark plug
- 7) Longer plug life
- 8) No plug fouling under the most severe conditions
- 9) Completely maintenance free after assembly

Parts required for conversion to electronic ignition system are:

1	Transducer	#M51-132
1	Flywheel	#M51-131
1	Ignition Dowel Pin	# 5/32 ignition pin

See Service Bulletin #118 for complete installation instructions.
